Art Unit: 2171

This is in response to application filed on August 31, 2001 in which claims 1-43 are presented for examination.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20 and 36-37, drawn to distributed data processing, classified in class 709, subclass 201 or class 707 subclass 10.
- II. Claims 21-35 and 38-43, drawn to multi computer data transferring, classified in class 709, subclass 200.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I method for importing or exporting data in a network-based customer relationship application and Group II method for generating an application for managing network data transfer operations are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are different because the methodology for managing transferring of data along with the required steps have different modes of operation compare to the methodology of importing or exporting data as required by the steps of the methods claimed in claims 1-20 and 36-37.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Kevin J. Zilka on April 8, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
